WINNIPEG NEW WATERWORKS.

The new system is an artesian well system. The first well is a ...t distance west of McPhillips Street, opposite Fonseca Street, on ...perty purchased by the City, where the new buildings and plant are ...ated. If the quantity of water derived from this well is not suffi...nt, a number of other wells will be sunk at suitable intervals to the ...rth.

Pumping engine house and boiler house, also a plant for soften...g the water are approaching completion.

The new public lighting plant is also erected in the new building.

The pumping machinery consists of two pairs of pumps, each ...apable of pumping five million gallons in twenty-four hours. One ...air will pump from well to softening plant, the other pair from soft...ning plant reservoir to the city mains. The engines are of the most ...odern type, built by Henry Worthington, of New York, under a con...act with McDougall & Co., Montreal.

The boilers for supplying steam to the pumping and electric light...engines are five in number, with superheaters and mechanical stok...and supplied by the Babcock Wilcox Co., of London and Glasgow.

Over 35 miles of new water mains have been laid; connections are ...ade at several points with the old company's system, which comprises ...bout 22 miles of pipe.

FIRE DEPARTMENT.

The fire department is an uniformed one and the number of men ...omposing the brigade and the equipment of the department are as follows:—

3 Stations.
1 Chief.
3 Captains.
3 Lieutenants.
1 Foreman Hook and Ladder Co
3 Engineers.
9 Hosemen.
